

Apply for EHA's Clinical Research Training in Hematology

CRTH provides early career researchers with a 9-month long unique training and mentoring experience focused on clinical research in Europe, with a global scope. After participating in CRTH, you have improved your skills and knowledge benefitting your work and career in clinical science.

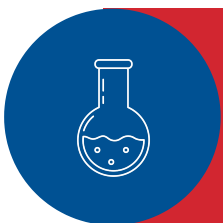

Learn how to design and execute a clinical trial and develop a strategy for effective collaboration with various stakeholders.

Objective 1

Objective 2

Discuss and apply effective publication strategies and examine the fundamentals of competitive grant and abstract writing and manuscript preparation and presentation.

Discuss approaches to forming and sustaining a multi-disciplinary research team and formulate strategies for pursuing and developing a successful career in hematological research.

Objective 3

Apply before September 2
